Men of Soul is a group of celebrated R&B and soul singers including Jeffrey Osborne, Howard Hewett and Peabo Bryson. The artists distinguished individually for timeless, chart-topping, and award-winning love songs, have come together to perform their favorite hits.

Balladeer Jeffrey Osborne's career has spanned several decades. He continues to engage audiences with such favorites as "On the Wings

of Love", "Don't You Get So Mad", "Only Human", and the crowd favorite "The Woo Woo Song." Jeffrey is no doubt one of the most accomplished R&B vocalists of our time. In addition to his many solo hits, the voice of the hit group, LTD, will also bring such classics as "Holding On", "Back in Love Again" and the timeless song "Love Ballad".

Oscar and Grammy award winner Peabo Bryson has brought us such favorites as "Feel the Fire", "Reaching for the Sky", "I'm So into You", and "Can You Stop the Rain". The 'Duet Master', whose magical vocal chemistry has paired him with the likes of some of music's most phenomenal female singers, including Minnie Ripperton, Natalie Cole, Celine Dion, Roberta Flack and Regina Belle, has undeniably helped shape the look and feel of our country's soul music canvas. Peabo also created such hits as, "Here We Go", "Tonight I Celebrate My Love" and the award-winning songs "Beauty and the Beast" and "A Whole New World".

With a hit musical catalogue that spans over three decades, Howard Hewett continues to remain one of the most

relevant artists of his generation. The former lead man for the hit music trio, Shalamar, Howard produced hit songs, "Second Time Around", "A Night to Remember", and the ballad "This Is For The Lover In You." As a solo artist, Howard would continue his great success with hits like "I'm For Real", "Stay", "Show Me" and the classic chart-topping soul-stirring song, "Say Amen."

While their individual achievements are impressive, Men of Soul are coming together "to bring love back to stages across the country" for an unforgettable night of R&B and soul at the 2013 Cavalcade of the Stars. The love songs of R&B's greatest soul crooners have helped mend many a relationship and been at the center of making others more memorable. Through their lyrics, millions have gained a better understanding of the meaning of true love and all that it has to offer.
